City, State, Zip Code:

Dear FCDC Board of Directors

I/we are applying for a variance to the no pumps in the ditch rule. This request is needed because we have no other way to feasibly get our water. If approved, Prior to installing a pump in the ditch I will install a FCDC-approved measurement device at my expense and report the reading to the FCDC Office bi-weekly during irrigation season. Below is a short explanation of why this is needed.
